

science-softCon UV/Vis⁺ Spectra Data Base
License fees

The annual license fee depends on the type of user group (academic non-profit or commercial).

Academic non-profit user (internal use only):

- Working Group License 120 EURO per year
- Institute License 220 EURO per year
- Campus License/Library License* 220 EURO per year

Commercial user (internal use only):

- Working Group License 220 EURO per year
- Company License* 500 EURO per year

* Data Base access plus latest "UV/Vis⁺ Spectra Data Base" CD-ROM

Nevertheless there is a possibility to reduce the license fee down to **zero** EURO. To do so the provision of missing or new validated/published spectra data for inclusion in the data base is required. The provider will get a 10 EURO cost reduction for every missing/new published spectrum. That means an academic non-profit user who provides us 12 missing/new validated spectra can use the data base one year for free.

If you have any questions please [contact us](#).
